El examen consta de 3 Bloques (A, B y C)

En cada bloque (**Comprehension, Use of English y Writing**) se plantean varias preguntas, de las que se deberá responder al número que se indica en cada uno. Las preguntas han de ser respondidas en su totalidad: si la pregunta tiene dos secciones, hay que responder ambas.

BLOQUE A (Comprensión lectora)

Puntuación máxima: 4 puntos

Debe responderse a las 8 preguntas de uno de los 2 textos propuestos.

I * COMPREHENSION (4 points). CHOOSE TEXT 1 OR TEXT 2 AND ANSWER ALL THE QUESTIONS FROM THAT TEXT ONLY.

TEXT 1: IT'S NOT EASY TO BE GREEN *KEY*

- 1 "I'll try to eat less meat," you think, as you pick up a plant-based alternative to your usual beef burger. Then you discover it's
2 almost double the price of the meaty version on the next shop shelf. "Sorry, meat wins."
3 Supermarkets have expanded the range of meat-alternative products in the last five years, with a variety of items that would
4 tempt any carnivore. There's one problem, though: the price.
5 Plant-based options often cost more than regular meat products. Take *Bird's Eye* nuggets as an example. A standard packet
6 costs £1.55 at *Tesco*; the brand's vegan choice is £2.50. So, why are they so pricey? Plant-based alternatives are a relatively new
7 and developing part of the market, which means more money is spent on research and innovation to ensure they meet the demand
8 for taste and quality. The good news is that the market is moving in the right direction. In December 2020, *Plant & Bean* opened
9 Europe's largest plant-based meat production facility in the UK to help drive down prices.
10 Supermarkets are also making changes. In April, *Co-Op* invested more than £1.7 million to reduce the cost of vegan food. As
11 part of the move, its own-brand vegan sausages fell from £3 to £1.45. No ingredients were changed.
12 Until prices go down, the Vegan Society says it's still possible to embrace a vegan lifestyle by choosing other products. Actually,
13 it's a misconception that vegan food is necessarily more expensive than animal products since some of the cheapest key
14 components of a vegan diet are rice, pasta, vegetables and beans.
15 The Vegan Society hopes to increase access to affordable plant-based food and support vegans who find themselves in
16 financial difficulty.

TEXT 2: MEN EARN MORE MONEY THAN WOMEN IN EVERY COUNTRY **KEY**

- 1 A new international study examining the difference in earnings within couples has revealed that men continue to be paid more
2 than women in every country.
3 In the first survey of its kind, scholars examined public data from 2.85 million households across 45 countries to reach their
4 conclusions. The report, published in the *Journal of Economic Behavior & Organization*, analysed the income of couples between
5 the ages of 18 and 65 over a four-decade period. The team wanted to assess the global picture, particularly in Scandinavian
6 countries, which are often presented as more progressive for females. However, the experts concluded that gender pay inequality
7 persists across countries, over time and across both rich and poor households. They found that the family unit is often a place of
8 great inequality, even in the most affluent nations.
9 One positive finding was that women's participation in the labour market had increased over the 40-year period. In many parts
10 of the world, more women-friendly policies have narrowed the gap. Nevertheless, the researchers felt that governments were not
11 doing enough.
12 In May 2020, on the fiftieth anniversary of the Equal Pay Act, the Trade Unions Congress (TUC) stated that women continue
13 to be underpaid and undervalued. General secretary of the TUC, Frances O'Grady, said: "Fifty years after brave women won the
14 legal right to equal pay, unequal earnings are still common today. Working women are stuck in low-paid and insecure jobs. No
15 doubt we need to reconsider how we value and reward their work. Without appropriate measures, it will take decades to close the
16 gender pay gap."
