## MONITORING, EVALUATION AND REPORTING OF THE STRATEGY

It is important for the Commission to be able to demonstrate how its action contributes to the progress of gender equality at EU level.

Each Commission service will continue to be responsible for the promotion of gender equality in the policy falling under its competence. The interservices group which involves all of the Commission's services to coordinate gender equality policies at Commission's level is the platform for the programming, monitoring and reporting of the Commission's activities regarding gender equality. It also contributes to the policy follow-up. The group is chaired by the director for Equality between Women and Men, Action against discrimination, Civil Society. The secretariat is in the unit "Equality between women and men" in DG EMPL.

As the promotion of gender equality and gender mainstreaming will be implemented as part of the Commission's policy making, the monitoring of gender equality will be integrated into the existing Commission's programming systems.

The processes to monitor and assess the results achieved will continue to be defined according to the distribution of responsibilities:

Each Directorate General is responsible for designing and implementing the promotion of gender equality in its activities. The DGs will regularly monitor the actions that have been carried-out to implement the strategy. The DG will report annually to the secretariat of the interservices group (up-dating the list annexed to the strategy for equality between women and men). The DGs are also responsible for the evaluation of the outcome of the promotion of gender equality. This evaluation should be conducted as part of the regular evaluations of their policies. Efforts will be requested in order to improve the integration of gender equality issues in the evaluations carried out in the different policy areas. The DGs will also be asked to report to the secretariat of the interservices group on the evaluation of the promotion of gender equality in their policies when available.

The secretariat of the interservices group will coordinate the annual monitoring and reporting of the actions carried-out. It will provide a synthesis of the main developments in the Annual Report on Equality between Women and Men presented each year for the annual policy debate.

In 2013, a more comprehensive review of progress achieved under the priority areas and an update of the actions to be carried out between 2013 and 2015 are foreseen. This review should also integrate the main results of the evaluations performed by the DGs on their policies.

In addition, a final assessment of the achievements and shortcomings in all policy domains, as well as of the effectiveness of the strategy as a coordination instrument is foreseen in 2015.
