SUPUESTO 1:

Cross curricular education is a strategy that offers a way for teachers to plan lessons that integrate more than one disciplinary subject. As you know, cross curricular work offers a creative way to develop children's knowledge, skills and understanding while motivating them to learn interconnected topics.

Propose a range of activities to create interesting curriculum connections in your English lessons.

SUPUESTO 2:

Puppets are one of the main resources used in English lessons. They can be used to bring stories to life and to encourage the imagination of students.

Design a lesson, including activities, where you use the puppet for storytelling.

SUPUESTO 3:

Attention deficit hyperactivity disorder is a condition that affects the student's behaviour. These children have some concentrating disorders and as a consequence, they act on impulse and talk too much during your English lesson.

Which resources would you use to calm down these hyperactive students?
