El examen consta de 3 Bloques (A, B y C)

En cada bloque (**Comprehension, Use of English y Writing**) se plantean varias preguntas, de las que se deberá responder al número que se indica en cada uno. En caso de responder más cuestiones de las requeridas, serán tenidas en cuenta las respondidas en primer lugar hasta alcanzar dicho número. BLOQUE A (Comprensión lectora)

Puntuación máxima: 4 puntos

Debe responderse a las 8 preguntas de uno de los 2 textos propuestos.

I * COMPREHENSION (4 points). CHOOSE TEXT 1 OR TEXT 2 AND ANSWER ALL THE QUESTIONS FROM THAT TEXT ONLY.

TEXT 1: THE PINK SAUCE DISASTER *KEY*

- 1 If you logged onto TikTok or Twitter recently, you might have seen people talking about something called *Pink Sauce*. No, it's
2 not pasta made with cream and tomatoes, but a condiment made by a TikTok user named Chef Pii. Pii advertises Pink Sauce by
3 dumping it on tacos, wings, egg rolls, salads and more. The bottle has an adorable design, and she's shipping it everywhere. The
4 problem? Almost everything.
- 5 Consumers are reporting all kinds of issues, ranging from misleading nutritional information to a spoiled smell. The chef posted
6 videos of her preparing the sauce without gloves on. Once the negative reviews started pouring in, people realized that nobody
7 knew what the actual ingredients were. In fact, Pink Sauce is unregulated and could likely make you sick. In a statement, Pii said
8 "I guess when you're great, you can't make a mistake. My team's working quickly to fix the issues."
- 9 Pink Sauce is not the only food product created by a TikTok user which has gone viral for the wrong reasons. Earlier this year,
10 someone called Deva Tillis posted a video complaining about a "spicy bowl" containing crawfish and eggs that she ordered from a
11 small business on the platform. The bowl took nine days to reach her, and the fish was rotten by the time it arrived. The product
12 was falsely advertised as being shipped with dry ice to preserve the seafood.
- 13 Small businesses selling unregulated food online isn't new, according to an expert. "It's not a TikTok phenomenon, but what's
14 different is that TikTok is really good at small consumption and making things go viral. However, just because it's on TikTok, that
15 doesn't mean that it's safe," she concluded.

TEXT 2: NO MORE MONDAYS **KEY**

- 1 For some US schools, the pandemic created an opportunity to try new things. One of them was to make four-day school weeks
2 the norm. As teachers' salaries cannot be raised, shortening the school week is a bonus which has allowed administrators to retain
3 and attract experienced teachers. Besides, a shorter school week may alleviate some of the workload on teachers and improve
4 their mental health. Schools can also save money. However, since teachers are not receiving any pay cuts, savings are typically
5 only between zero and three percent of the schools' budget.
6 Currently, more than 1,600 schools across 24 US states have a four-day school week, and the trend is growing, giving students
7 and teachers either Fridays or Mondays off. To make up for the time missed, the new model's school day is, on average, about an
8 hour longer than the traditional one.
9 Superintendents in districts which have transitioned to four-day weeks say that the vast majority of teachers, students,
10 administrators and parents actually love the model, an assertion backed by research and surveys.
11 It is a fact that absenteeism and discipline have seen a marked improvement in most of these districts. As regards students'
12 academic performance, results are varied. For example, students in Colorado had higher scores in Maths and English, whereas
13 students in Oregon got poorer results. Still, graduation rates, particularly among Latino students, have increased since the model
14 began.
15 The four-day week is still limited to small, rural schools in US states where travel distances are greater and hiring qualified
16 educators is a challenge. Current research is giving rise to more innovative ways of schooling which work better for teachers,
17 students and families.
